Your Online Vehicle Logbook System

Test drive fleetlog

Use FleetLOG - the drivers logbook for car allowances drivers. Stop your paperwork headaches, give yourself more free time and reduce your PerksTax worries

Are you tired of paperwork and trying to remember trips?
Do you want to keep more of your hard earned money?
Do you want to drive a better car?

Its always hard to keep a logbook and record of all the details of your trips when you do a lot of driving.

1. Leaving out a few business trips...
2. Not being able to precalculate your tax based on your business and private kilometers...
3. Not managing your vehicle properly...

Can lead to you paying more tax than is necessary
... even a PerksTax audit by SARS

To avoid these and other potential pitfalls in managing your vehicle and your PerksTax - you need a helping hand.

FleetLOG can be that helping hand for you. The internet based logbook is easy to use and has been designed especially for the car allowance driver.

We will also send you regular newsletters on various matters related to managing your vehicle and your PerksTax

Legislation

The new PerksTax legislation introduced in 2005 will result in car allowance drivers paying about 100% more PerksTax than last year. In 2006 it could increase by another 18%

The only way to manage your tax effectively will be to keep a proper logbook of your private and business trips.

The message from SARS is very clear - KEEP A PROPER LOGBOOK

FleetLOG

The online logbook has been designed to help you do just that.

FleetLOG's main features:

Easy to use dashboard with six main menus

1. Personal Details: manage your account
2. Vehicle Details: record up to three vehicles
3. Reminders: sms or email reminders that you set
4. Logbook entries: record business and private trips quickly and easily. Print logbook details as you need them
5. Services logbook: record all your services and costs
6. General: PerksTax calculators and support

Benefits

Maintain a proper record of your vehicles for tax purposes

Manage your PerksTax properly

Easily accessible on the internet, your privacy is protected

Use the calculators to assess your PerksTax during the year

Use the calculators to optimise the car you want to drive and the tax you are likely to pay

At R170 a year (including VAT) or R14.17 a month you can control your vehicle usage and related PerksTax

IT REALLY IS VERY EASY TO USE.

REMEMBER Any tax submission that shows a decrease in private kilometer (16000 km) or an increase in business kilometer (16000 km) requires you to produce a proper logbook
